

CAPABILITY STATEMENT

Ei brings our clients visions and aspirations to life through proven experience and first time, every time delivery

What We Do

Technology & Broadcast Integration

Technology is advancing quicker than ever, directly impacting the way users work. Having worked on many world firsts Ei's focus remains on working first time, every time critical to the success of any broadcast or technology operations.

Advisory & Mentoring

Ei is currently providing technical advisory and mentoring services to some of the highest profile major events and new stadium builds in the world. Ei works collaboratively to support design, planning, readiness and delivery phases of these complex projects.

Event & Project Services

Ei offers end to end dedicated event services across all phases of an event lifecycle. We love collaboration if your teams missing a specialised skill Ei can work with you to fill that gap with leading industry talent and proven experience.

Event Readiness

Ei specialises in turnkey event readiness solutions developing readiness programs from the ground up tailored to meet the demands of your event to ensure people, processes and systems are Games, match, or event ready.
